**NEW
EXPERIENCE**

*Product shown in the picture may vary from actual product available in the market.

Go where you choose with the all-new Honda NX500, a perfect choice for modern street adventures. Crafted to be the ultimate companion for those seeking thrilling rides from city streets to weekend escapades, the Honda NX500 redefines versatility. Its modern off-road inspired design, featuring an assertive rally-style fairing and a large sized screen, offers both comfort and wind protection. This cutting-edge ride is equipped with advanced technology, including a 5-inch TFT screen with Honda RoadSync smartphone connectivity. Powered by a twin-cylinder engine, the Honda NX500 ensures flexible and immensely enjoyable performance with HSTC traction management. Your new experience awaits – where will you take your next ride?

ULTIMATE POWER

Twin-Cylinder Engine

Strong torque seamlessly from low to mid rev-range, with 43Nm impressive peak, ensuring a thrilling and responsive acceleration experience both on and off the road.

ENHANCED VISIBILITY

Powerful New Headlight

Commanding attention with a strong beam penetration, the powerful headlight ensures broad light distribution on either side, significantly enhancing visibility for confident night-time cornering and exploration.

ENGINEERED TO PERFECTION

Honda E-Clutch

Use it like a regular clutch or don't. With Honda's new E-Clutch, the NX500 shifts up, down, start, and stops without you touching the clutch lever. It's smooth, seamless, and always in sync with how you ride.

Honda E-Clutch

RALLY SPEC WIND PROTECTION

The NX 500 comes with Rally Spec Wind Protection that enhances performance with improved aerodynamics and adds more to your adventures by reducing rider fatigue.

TRACTION MANAGEMENT

Honda Selectable Torque Control

Masterfully handling rear wheel traction across varied road conditions, especially in rainy weather. For off-road adventures on dirt or gravel, the traction control can be switched off completely, unleashing maximum driving power.

UTMOST COMFORT

Suspension

The advanced suspension technology, the 41mm Separate Function-Big Piston (Showa SFF-BP) forks promise precision, reduced sliding resistance, with dual discs for powerful braking.

ADVANCED DISPLAY TECHNOLOGY

Fully Connected Colour TFT Display

Enhancing the riding experience with cutting-edge optical bonding technology, the 5-inch display not only reduces glare but also boasts intuitive operation. It seamlessly integrates smartphone connectivity through Honda RoadSync.
